Transfer to Four-year Institutions

Transfer Program

American River College courses numbered 300 to 499 are accepted by each of the 23 campuses of the California State University (CSU). Transferable courses can satisfy lower division major preparation, general education, and/or elective requirements. Students should meet with an ARC counselor regarding the transferability of courses to the University of California (UC) independent and out-of-state public colleges and universities, UC transfer status is also located in the course description in this Catalog.

Transfer information has been compiled to assist American River College students who intend to transfer to another college or university. Students are encouraged to work with their ARC counselor to ensure they are taking courses that meet lower division general education and major requirements. CSU and UC campuses accept a maximum of 70 semester units from community colleges toward the Bachelor's degree.

There are also many independent colleges and universities to which ARC students transfer. Each institution of higher learning has its own requirements for admission and for junior standing. Some independent colleges/universities accept the CSU General Education pattern or IGETC in lieu of their own general education requirements.

Five Transfer Options

Students must decide which college they will attend and learn the requirements of that institution in order to transfer to a CSU, UC, independent or out-of-state university. It is highly recommended that students use the services offered by our Transfer Center, and meet with their ARC counselor regularly to ensure they are taking the appropriate coursework for transfer. It is also important to choose the transfer major early to ensure completion of the appropriate transfer courses.

In general, however, students will choose one of the following options:

1. If you are certain that you want to *transfer to any campus of the California State University (CSU)*, follow the lower division major requirements as outlined on ASSIST (www.assist.org), choose either the CSU-GE or IGETC pattern to fulfill your lower division General Education requirements, and make sure you complete between 60 and 70 transferable semester units.
2. If you are certain that you want to *transfer to any campus of the University of California (UC)*, follow the lower division major requirements as outlined on ASSIST (www.assist.org), choose either the IGETC pattern or the UC campus-specific GE/Breadth pattern to fulfill your lower division General Education requirements, and make sure you complete between 60 and 70 transferable semester units.
3. *If you are uncertain* whether you wish to transfer to a CSU or UC campus, work closely with your counselor to ensure you are completing the admission requirements for the CSU and UC campuses to which you are most interested in transferring to, and follow the IGETC to complete lower division general education requirements. To help things go smoothly, choose your transfer college and major as early as possible.
4. If you want to *transfer to a specific campus* (UC, CSU or elsewhere), you may ask that campus for a copy of its specific admission and General Education/Breadth requirements. However, for most CSU and UC campuses, CSU-GE or IGETC is the most efficient way to complete your lower division general education requirements.
5. If you want to transfer to an impacted campus or into an impacted major at a CSU or UC, you will need to meet specific entrance requirements for that program or campus. You may want to consider completion of an Associate Degree for Transfer (ADT) for admission to a CSU campus. Meet with your ARC counselor to ensure you are choosing the best way to fulfill your transfer goals.

Transfer to the California State University

Students intending to transfer to a California State University (CSU) should plan a program to meet the graduation requirements of the specific institution which they plan to attend. Transfer admission eligibility is based on transferable college units and/or high school record and test scores. Consult the catalog issued by the individual campus for a complete description of the curricula and regulations. Catalogs are available in the Transfer Center.

Students who were eligible for admission to a CSU upon graduation from high school, but who have attended American River College, may transfer with less than 60 transferable units, but must have earned a grade point average of C (2.0) or better in the total program attempted and be in good standing at American River College in order to be accepted for transfer. However, consult with an ARC counselor to ensure that the CSU campus you choose is accepting transfer students with less than 60 units.

Students who were ineligible for admission to a California State University on the basis of high school grade point average, test scores, or subject requirements, will be eligible only if they (1) have completed 60 transferable college units with a grade point average of 2.0 or better; (2) are in good standing at ARC; and (3) have satisfied the following CSU admission requirements. Some CSU campuses have additional admission requirements. Check with your counselor to ensure you are meeting the entrance requirements for your chosen CSU campus.

Please refer to www2.calstate.edu/apply for more information.

CSU Admission Requirements

1. High School graduate prior to 1987.
 - a. Area A 1, 2, 3 (With grade of C or better).
 - b. Area B 4 (With grade of C or better).
2. High School graduate 1988 and later.
 - a. Area A 1, 2, 3 (With grade of C or better).
 - b. Area B 4 (With grade of C or better).
 - c. Thirty (30) semester units of General Education with C or better. This includes areas A and B.

*See the *CSU General Education Requirements* in the *Transfer* section of this catalog for listings of courses that meet Areas A 1, 2, 3 and B 4.

All students wishing to transfer to a CSU campus have the option of using the California State University General Education pattern, the Intersegmental General Education Transfer Curriculum (IGETC), or CSU campus-specific requirements to meet CSU general education requirements. Completion of the CSU General Education pattern or IGETC allows the student to transfer to a CSU campus without the need to take additional lower division general education courses after transfer. Students are encouraged to complete as many lower division major requirements as possible for their chosen CSU campus while attending ARC. These requirements can be found online at www.assist.org.

CSU General Education and IGETC Certification

Students transferring to a CSU campus usually find it to their advantage to complete the required General Education requirements prior to transfer. This can be accomplished by completing either the California State University GE or IGETC certification pattern. These patterns are listed in Section C. Students must make an appointment with their ARC counselor to have these patterns certified prior to transfer.

Completion / Transfer (Student Right to Know)

In compliance with the Student Right to Know and Campus Security Act of 1990, completion and transfer rates for students attending American River College can be found online at: <http://srtk.cccco.edu/index.asp>

Transfer Degrees

The Student Transfer Achievement Reform (STAR) Act established Associate Degrees for Transfer (ADT) for California community college students. These degrees are designed to provide a clear pathway to CSU degrees. California community college students who earn an ADT degree are guaranteed admission with junior standing to select CSU campuses and are given priority admission consideration over other transfer students. Students who have completed an ADT in a major deemed similar to a CSU major are able to complete the remaining requirements at that CSU within 60 units after transfer. For more information, please see your counselor.

For a list of transfer degrees refer to page 68 of this catalog.

Articulation

American River College has articulation agreements with most campuses of the California State University (CSU) and University of California (UC). In addition, the college also has articulation agreements with a number of private universities in and outside of California.

These agreements assure ARC students appropriate lower-division preparation for transfer. Articulation agreements with CSU and UC campuses can be viewed online at www.assist.org. Articulation agreements with private and out-of-state colleges and universities can be viewed on the Transfer Center web page at www.arc.losrios.edu/transfer - under the heading *Resources*. See a counselor for assistance.

Course Identification Numbering System (C-ID)

American River College participates in the C-ID program. C-ID is a supranumbering system. Each C-ID descriptor and number identifies a lower-division course commonly offered at California Community Colleges. Many CSU campuses accept C-ID approved community college courses for articulation and transfer purposes.

A listing of American River College courses approved for C-ID can be found at: www.assist.org (*Under "Explore Transfer Information" choose American River College. C-ID information is located at the bottom of the page.*)

See next page for CSU GE Pattern

ARC Associate Degrees for Transfer

American River College offers Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T) degrees. Students receiving an AA-T or AS-T degree must complete all of the required courses for a major (earning a “C” or better in these courses), complete either the CSU General Education Certification pattern or the Intersegmental General Education Transfer Curriculum (CSU option), and 60 CSU transferable units. All students wishing to obtain a AA-T or AS-T degree from American River College need to petition early in their last semester for graduation.

CSU GE Pattern

Check with your ARC counselor before choosing whether to complete the CSU General Education (GE) Pattern or the Intersegmental General Education Transfer Curriculum (IGETC) on the following pages.

General Education Requirements 2018-2019

To be eligible for graduation with a Bachelor's Degree from a California State University, students must complete a minimum of 48 semester units of general education. At least 9 units must be upper division courses completed at the CSU campus. American River College will certify completion of 39 lower division general education units for students who follow the pattern outlined below. It is important that students complete the required courses for their major, or courses that prepare them for their major, prior to transfer; 60 transferable semester units are needed for a student to transfer with junior standing.

Advanced Placement (AP), College Level Examination Program (CLEP), and International Baccalaureate (IB) examinations are appropriate for inclusion on the CSU GE certification pattern. Charts denoting how these tests meet CSU GE requirements can be viewed on pages 74-78 of this catalog.

Note: Students must meet with a counselor in order to have their CSU General Education certified prior to transfer.

Transfer to the University of California

Please refer to <http://admission.universityofcalifornia.edu/transfer/index.html> for more information.

This section gives general information concerning requirements for transfer into the nine University of California campuses that offer undergraduate programs. Specific information regarding preparation for major and/or breadth requirements to the individual campuses is available in the ARC Counseling Center.

Students wishing to transfer to any University of California campus have the option of using the IGETC (listed in Section C) or a UC campus' individual breadth requirements to meet lower division breadth requirements. However, not all majors at UC campuses recommend the IGETC. Students should check with their ARC counselor in order to choose the correct option. Transfer students are encouraged to complete as many lower division major requirements as possible at ARC. UC campuses often select students based on their major preparation. It is advised that students meet with their ARC counselor regularly to make sure they are meeting UC entrance requirements. Students can also find lower division major requirements for UC campuses online at www.assist.org.

UC Minimum Admission / Eligibility Requirements

There are three ways to meet the University's minimum admission requirements for transfer students. The path you use depends on the degree to which you satisfied UC's minimum eligibility requirements for freshmen when you graduated from high school.

At high school graduation, if you:

1. Met the Subject, Scholarship and Examination Requirements then to be eligible to transfer to UC you must:
 - Maintain a C average (2.00 GPA) in your transferable coursework.(2.8 for non-residents)
2. Met the Scholarship Requirement, but did not satisfy the Subject Requirement then to be eligible to transfer to UC you must:
 - Take transferable college courses in the missing subjects, earning a C or better in each course, and
 - Maintain a C average (2.00 GPA) in your transferable coursework.(2.8 for non-residents)
3. Were not eligible for admission to UC because you did not meet the Scholarship Requirement then to be eligible to transfer to UC you must:
 - A. Complete 60 semester (90 quarter units) of transferable credit with a 2.40 GPA, taking no more than 14 semester (21 quarter units) Pass/No Pass.
 - B. Complete the following course pattern requirements, earning a grade of 'C' or better in each course:
 - a. Two UC transferable college courses (3 semester or 4-5 quarter units each) in English composition (Courses from IGETC Areas 1A and 1B fulfill this requirement);
 - b. One UC transferable college course (3 semester or 4-5 quarter units) in mathematical concepts and quantitative reasoning (Courses from IGETC Area 2 fulfill this requirement);
 - c. Four UC transferable college courses (3 semester or 4-5 quarter units each) chosen from at least two of the following subject areas (Courses from IGETC Areas 3, 4 & 5 and other transferable courses fulfill this requirement):
 - arts and humanities
 - social and behavioral sciences
 - physical and biological sciences

High School Proficiency Examination

Transfer applicants who have passed a high school proficiency examination must also meet regular university entrance requirements.

Transfer Opportunity Program (TOP)

The Transfer Opportunity Program (TOP) exists at American River College to assist ARC transfer students in the transition to the University of California at Davis. A transfer advisor from UC Davis is available once a week in the Counseling Center at ARC to assist students in fulfilling admission requirements, lower division major requirements, breadth requirements, and screening requirements in selective majors.

If you are interested in meeting with the UC Davis transfer advisor, make an appointment in the Transfer Center.

2018-2019 University of California and California State University Intersegmental General Education Transfer Curriculum (IGETC)

Completion of all the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) meet lower division general education requirements at either a California State University (CSU) or University of California (UC) without the need after transfer to take additional lower division general education courses. All courses must be completed with grades of "C" or better. For information regarding admission requirements to attend a CSU or UC, please visit the Transfer Center website or meet with an ARC counselor. Students should also visit the www.assist.org website in order to view the courses that will complete lower division major preparation requirements.

Note: The 2018–2019 IGETC pattern was not available at the time the catalog was printed. Please see a Counselor for the updated list of approved courses.

Note: Student must see a counselor to have this pattern certified before transferring. Students who have selected a specific campus for transfer should consult with an ARC counselor before following the IGETC pattern.

The CSU or UC accepts completion of general education coursework at certifying institutions provided the course was on an approved IGETC requirement list at the time it was completed.

Advanced Placement (AP) and International Baccalaureate (IB) examinations are appropriate for inclusion on the IGETC pattern.

Charts denoting how these tests meet IGETC requirements can be viewed on pages 74–78 of this Catalog.

Transfer Center

The mission of the Transfer Center is to help students learn of the many options available to them to continue their studies at four-year colleges and universities. ARC is committed to helping students become better informed so that they may plan for their future with as much knowledge and support as possible. The Transfer Center is located in the Counseling Center.

The Transfer Center provides to students and all staff the most current information to ensure a smooth transition to four-year colleges and universities. Application assistance, workshops, events, university tours, current information, resources, and internet access are available to students who are committed to transfer as well as to those exploring the possibility of transfer. Students may talk to community college counselors and meet with admissions advisors from a variety of colleges and universities; California State University (CSU), University of California (UC), and Private/Out-of-State.

Working with ARC counselors, students who meet certain criteria may be eligible for a transfer degree and/or a Transfer Guarantee Program (TAG) with selected four year institutions.

For more information please visit: arc.losrios.edu/transfer or call (916) 484-8685

External Examinations

Students should be aware that other 2- and 4-year college student/universities may use AP, CLEP, and IB exam scores differently than they are used at American River College, and they are urged to meet with a Counselor for more information.

Advanced Placement (AP)

Students may earn units of credit for AP exams as described on pages 74-75 of this Catalog by submitting official CEEB Advanced Placement exam scores to Admissions & Transition Services for evaluation.

International Baccalaureate (IB)

Students may earn units of credit for IB exams as described on page 76 of this Catalog by submitting official IB exam scores to Admissions & Transition Services for evaluation.

College Level Examination Program (CLEP)

Students may earn units of credit for CLEP exams as described on pages 77-78 of this Catalog by submitting official CLEP documentation to Admissions & Transition Services for evaluation.

AP (Advanced Placement) and IB (International Baccalaureate) Exam Scores

- Use of AP Exam Scores for ARC course credit and General Education determined by ARC policy.
- Use of AP Exam Scores for IGETC determined by IGETC Policy.
- Use of AP Exam Scores for CSU GE Certification determined by CSU Policy.

** Student needs to complete a course which covers California State and Local Government in order to complete CSU American Institutions graduation requirement.

If a student passes more than one AP exam in calculus or computer science, only one examination may be applied to the baccalaureate at a CSU campus.

A Score of 3 or higher on the AP test qualifies the course to count for GE at ARC.

+ If a student passes more than one AP exam in Physics, only 6 units total may be applied to the baccalaureate, and only 4 units total may be applied to the certification of GE Breadth at a CSU campus.

% Exam meets IGETC science course & lab requirement but only grants 3 units towards the IGETC. Student may need to complete additional coursework to meet the minimum 7 units in IGETC area 5

*The exams listed are only those exams for which ARC and/or the CSU system awards units of credit.

** If a student passes more than one CLEP examination in the same language other than English, only one examination may be applied to the baccalaureate. For each examination in a language other than English, a passing score of 50 is considered "Level I" and earns six units of baccalaureate credit; "Level II" credit is for the same exam but a higher score (as indicated), and earns additional units of credit and placement in Area C2 of GE Breadth as noted.
