Learning Outcomes for Continuing Professional Training (CPT)

Upon completion of this course, the student will be able to:

- Identify mandated legislative training requirements for public safety personnel.
- Apply safety techniques during normal and emergency incidents and conditions.
- Apply contemporary techniques, skills, and procedures for emergency and non-emergency public encounters, criminal investigations, and crime prevention interventions.
- Identify, compare, and contrast changes in policies, procedures, and legal requirements occurring within our constantly changing legal and public safety systems.
- Improve, enhance, and apply the most appropriate communication techniques when interacting with the public, fellow officers, allied agencies, community based organizations.
